SUMMARY

Dedicated to understanding machine learning and deep learning. My work bridges theoretical insights with impactful applications, focusing on optimal transport, optimization, and foundation models.

SKILLS

Technical: Statistics, Optimization & algorithms, Machine Learning, Deep Learning, LLM.
Tech-stack: Python, Java, SQL, Pytorch, FastAPI, AWS Sagemaker, Docker.
Misc: Logical & Critical thinking, Leadership, Teamwork, Problem-solving.
Languages: Vietnamese (Native), English (Advanced).

EDUCATION

2023 to Now	Hanoi University of Science and Technology Bachelor of Science in Data Science and Artificial Intelligence	3.91/4.00
2020 to 2023	Hanoi National University of Education, High School for Gifted Students Math Honors Class	9.6/10

RELEVANT EXPERIENCE

2026.8 to Now	AI Research Resident • Machine learning team	Qualcomm AI Research
2025.4 to 2025.8	Internship - Viettel Digital Talent • Prototyped reasoning-focused LLM for networking application, improved accuracy by 4% on internal test dataset.	Viettel
2024.6 to Now	Research Assistant • My research focuses on human alignment, machine reasoning, and the fundamentals of deep learning under the supervision of Dr. Ngo Van Linh.	The International Research Center for AI – Foundation Models Lab

SELECTED PUBLICATIONS

For an updated list, please refer to my [Google Scholar](#) profile.

2026	BSO: Safety Alignment Is Density Ratio Matching NeurIPS 2026 (Co-first author).	Link
2026	Route-and-Generate: KL-Regularized Router Improvement for Reasoning Routing in LLMs Under review.	Link
2026	Principled Token-Level Preference Optimization via Ratio Matching ICML 2026 (Co-first Author).	Link
2025	CTPD: Cross Tokenizer Preference Distillation AAAI 2026 (First Author).	Link

HONORS AND AWARDS

2025	HUST Academic Excellence Award.	
2025	Second Prize - Student Scientific Research Competition. detection system (multilingual, multi-domain))	(Machine-generated text)

2024	HUST Academic Encouragement Scholarship 2024.1 Semester. (Dean's List–equivalent merit scholarship)
2024	Top 6 (5%) SOICT Hackathon AI Application track. (Automatic data visualization platform, improving data analysis speed and performance)
2023	HUST Academic Encouragement Scholarship 2023.1 Semester. (Dean's List–equivalent merit scholarship)
2023	Second Prize in Mathematics, HNUE Olympiad 2023.
2022	Third Prize in Mathematics, HNUE Olympiad 2022.

CERTIFICATIONS

2022	7.0 IELTS.
------	------------

EXTRACURRICULAR EXPERIENCES

2023.9 to Now	Member of Study, Scientific Research & Orientation	HCM Youth Union
	• Led student-driven initiatives to promote research activities, organizing events and mentorship programs to improve academic engagement. • Assisted students in scientific research, career development, and skill-building activities.	
2025.6 to Now	Head of Technical Committee	SoICT Innovation Club
	• Organized seminars and workshops; published slides and relevant documents. • Mentored new members through a 6-week track; shipped multiple capstones.
